Financial Ecosystem Program

Program Brief

As part of the Emirate's approach to diversify the economy and in line with the 2030 UAE economic vision, the Industrial Development Bureau has developed the Financial Ecosystem Program to facilitate local companies to access right financiers and financial services/products in an efficient way.

Receiving a wide variety of financing offers from most prominent banks & other financiers in UAE is now available through the Financial Ecosystem Program.

Objectives

Create a competitive funding environment

By enabling investors to seek funding opportunities from various financiers at once, this will generate further competition and lower funding costs.

Our goal is to enhance the financial ecosystem in the Emirate of Abu Dhabi which will allow investors to seek the appropriate funding within a few clicks through our Business Financing Facilitation platform.

Increase funding accessibility

The program encompasses various stakeholders in financial ecosystem to support various financing requirement from Abu Dhabi companies.

Commercial banks

Public Entities

Financial Ecosystem Program Provides 2 Key Business Financing Facilitation Services

1

Business Financing Facilitation Service

Seeking a competitive financing for your company is now accessible through our service platforms at TAMM and ATLP. Your application will be forwarded to up to 14 banks at once.

2

Export Financing Facilitation

Two main entities, ADEX & ECI, have partnered with DED in order to support your company's export business through various contemporary solutions.

Business Financing Facilitation Service

“Start” the Business Financing Facilitation service and apply with the required docs

Applications that fulfill the requirements will be forwarded to the banks

Banks will assess the applications and respond with their feedback

Applicants will choose a competitive financier & take a preferred offer
